### ***Follow Me Home***

***Follow Me Home*** emphasizes a relational model of inter-dependency and is organized to strengthen each individual in their spiritual, emotional and material growth and well-being through internal and external support structures. ***Follow Me Home*** is a virtual family of individuals who have experienced a range of challenges including substance use, post-incarceration or combat veteran re-entry issues, history of trauma, abuse, and homelessness. The primary criterion for admission is not a problem or circumstance, but a personal aim to live to one's full potential in fellowship and mutuality with others and a conviction to abide in that choice.
